OBJECTIVE

Motivated full stack web developer with hands-on experience in Python, React.js, Django, and Flask. Currently pursuing an MCA while strengthening problem-solving skills through Data Structures and Algorithms. Seeking a developer role to contribute to real-world projects and grow technically.

TECHNICAL SKILLS

Languages: Python, SQL, HTML, CSS, JavaScript

Web Frameworks: Django, Flask, React.js

Developer Tools: MySQL, VS Code, PyCharm

EXPERIENCE

Web Developer Intern — 8 Queens

May 2024 – June 2024

- Developed and maintained front-end components using React.js, focusing on responsive design, state management, and component-based architecture.
- Collaborated with cross-functional team members to implement UI features following Agile development practices and coding standards.
- Improved hands-on proficiency in modern JavaScript frameworks and front-end best practices through real-world project work.

PROJECTS

Steganography System

- Built a Python-based steganography system using advanced encryption techniques to securely embed confidential data inside images without visible degradation.
- Designed an intuitive front-end interface with HTML, CSS, and JavaScript, supporting seamless file upload and data retrieval workflows.
- Implemented secure data-hiding algorithms that preserve image quality while ensuring full data integrity and confidentiality.

Moviepedia

- Developed a Single Page Application (SPA) in React.js with real-time search, smooth navigation, and a fully responsive layout.
- Structured the codebase using reusable components and modern JavaScript patterns, improving scalability and maintainability.
- Integrated a third-party movie database API to display comprehensive movie details, ratings, and user reviews with robust error handling.

EDUCATION

SRM University, Chennai

2024 – 2026

Master of Computer Application (MCA)

Coursework: Data Structures and Algorithms, Object-Oriented Programming (OOAD), Operating Systems, System Design, Database Technology, Software Testing, Software Project Management, AI/ML

Dr MGR University, Chennai

2021 – 2024

Bachelor of Computer Application (B.CA) | CGPA: 6.91 / 10
